

**Croydon
Grove**
Care Community

Ageing is living

We look forward to meeting you at **Croydon Grove Care Community**

Nestled among majestic pine trees with sweeping views across Croydon to the Dandenong Ranges, Croydon Grove Care Community offers a warm, welcoming environment with a team dedicated to providing high-quality and personalised care.

Our custom-designed Care Community will be home to 128 residents over three levels. Each bedroom features a private ensuite and most have a balcony or terrace to enjoy the outdoors from the convenience of your own room.

Our town centre is the heart of Croydon Grove, designed with an indoor-outdoor flow, opening onto our lawn bowls green and barbeque area. Our hairdressing salon, Evergreen, promises to be a popular spot for indulging in a little pampering, so you can look and feel your best.

Just steps away is our physio-led Wellness Centre which offers individualised exercise and reablement programs for residents and the local community. And a visit to our town centre would not be complete without stopping by Rolling Jack Café – a welcoming place where residents, families and friends come together over barista-style coffee and freshly baked treats.

We provide high-quality residential aged care services, including permanent, respite and dementia care, delivered by our experienced and compassionate team. With personalised support tailored to each resident's needs and preferences, our focus is on enabling every resident to live their best life.

Conveniently located next door to Mingarra Retirement Living, Croydon Grove enables older people to continue to live well in their local area, maintaining social connections and with the right care at hand 24/7.

More than just a home.

Our purpose-built living spaces are designed to help residents live with meaning and joy – where you're free to follow familiar routines, pursue your interests and discover new ones, surrounded by care, comfort and companionship.

Features:

Registered nurses on duty 24 hours a day, seven days a week

Indoor/outdoor café with barista-style coffee and snacks to enjoy

Wellness Centre with on-site physiotherapy to support reablement and restorative care

Lawn bowls green and outdoor barbeque area
